

Please do not reduce the efficiency of the No Call List. My wife and I leave our home very early in the morning and don't return until early evening and the constant attack by telemarketers reduced our short period of time in our home to never ending series of interruptions. Since we entered our names on the No Call List, there has finally been peace and quiet around our home.

Thank you for not reducing the effectiveness of the No Call List.

Sincerely,  
Mark T. Allen
